

Figure 1

Figure 1 consists of two panels, (a) and (b), showing histograms of the number of non-zero elements in the sparse matrices A_0 and A_1 , respectively.

(a)

The x-axis is labeled "Number of non-zero elements" and ranges from 0 to 1000. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is highly skewed towards zero, with a peak frequency of approximately 9 at 0 non-zero elements.

(b)

The x-axis is labeled "Number of non-zero elements" and ranges from 0 to 1000. The y-axis is labeled "Frequency" and ranges from 0 to 10. The distribution is also highly skewed towards zero, with a peak frequency of approximately 8 at 0 non-zero elements.
